IV. DAMAGES

[UMN/Finch Position:

Answer the following questions only if you have found at least one Asserted Claim infringed AND not invalid.¹

Question 5. What dollar amount do you determine to be a reasonable royalty to compensate UMN/Finch for Ferring's infringement, through the date of trial?

\$ _____

[Ferring's Position:

Answer the following questions only if you have found at least one Asserted Claim infringed AND not invalid.²

Question 5. What dollar amount, if any, do you determine to be a reasonable royalty to compensate Finch for any infringement through the date of trial? Please provide a

¹ **Ferring:** Ferring objects to this question because it conflates the upfront payment and royalty rate and is likely to mislead the jury into considering only one over the other. The question is also confusing as the jury may not understand what it means for at least one Asserted Claim to be infringed and not invalid. Instead, the instruction should reference the previous questions.

UMN/Finch: Ferring's objection improperly suggests that an "upfront payment," which is part of UMN/Finch's damages claim, is not part of a "reasonable royalty." *See* PTX-621.0006–0009; *see, e.g.*, *Uniloc USA, Inc. v. Microsoft Corp.*, 632 F. Supp. 2d 147, 152 (D.R.I. 2009) ("If liability is found, the jury will decide whether the evidence supports a lump-sum or running royalty or some combination thereof"). Ferring's suggestion that the instruction reference the previous question numbers, rather than the substance of those questions (infringement and validity) is likely to be confusing for the jury.

² **UMN/Finch:** Ferring's proposed damages instruction is confusing and likely to invite error. Moreover, Ferring's question improperly suggests that an "upfront payment," which is part of UMN/Finch's damages claim, is not part of a "reasonable royalty." *See* PTX-621.0006–0009; *see, e.g.*, *Uniloc USA, Inc. v. Microsoft Corp.*, 632 F. Supp. 2d 147, 152 (D.R.I. 2009) ("If liability is found, the jury will decide whether the evidence supports a lump-sum or running royalty or some combination thereof"). The last two sentences of this question should be removed and there should be a single line for the jury to write in the dollar amount of damages.

Ferring: Using a single line entry conflates the upfront payment and royalty rate and is likely to mislead the jury into considering only one over the other. Separating the damages question into three different inquiries is more likely to accurately represent the jury's decision.

total and the royalty rate used to calculate it. If you find that Finch is also entitled to an upfront payment, please list that separately.

Reasonable royalty between launch of Rebyota and trial: \$_____

Royalty rate: %_____

Upfront, if any: \$_____
